SHIRLEY, MASS., U. S. A.

MANY PESTS INTERCEPTED

E. M. Ehrhorn, Territorial entomologist, in his report for November to the board of agriculture and forestry, says that during the month there were arrivals at Honolulu of 33 vessels, 22 of which carried vegetable matter and one vessel clean sand for cement work. The usual careful inspection was made with the following results: Passed as free from pests: 1168 lots and 27,290 parcels; fumigated, 18 lots and 328 parcels; burned, 33 lots and 74 parcels; total inspected, 1239 lots and 27,792 parcels.

During the month 25,463 bags of rice arrived from Japan, which were found free from weevil and passed.

Pests Intercepted.

Sixty-two packages of fruits and vegetables were found in baggage of foreign passengers and immigrants and all were destroyed by burning. We found several lots of chestnuts from Japan badly infested with weevils. Some apples from Japan were infested with a fungus resembling the litter rot. On a shipment of planis from Manila we found mealy bug (*Pseudococcus virgatus*), the bamboo scale (*Asterolecanium bambusae*), a leaf bug (*Capsus* species) and some ants. One queen bee arrived from Yokohama and on examining the package the bee was found dead. It was thought advisable to burn the box with the bees.

Hilo Inspection.

Brother M. Newell reports the arrival of seven vessels—six steamers and one sailing vessel. Five steamers carried vegetable matter consisting of 174 lots and 3217 parcels. One hundred and eighty-five sacks of potatoes were not clean and the consignee had to sort them over. Two cases of cauliflower were infested with caterpillars and were destroyed.

Inter-Island Inspection.

During the month of November 62 inter-island steamers were attended to and 862 packages inspected and passed. Forty-three packages were inspected and refused.

KAMEHAMEHA WILL CELEBRATE 25 YEARS

The Christmas number of the Handicraft, the semi-monthly magazine printed and published by the students of the Kamehameha Schools, is just off the press and is a very fair sample of the printer's art. The articles are all well written and besides the general school notes there are several other articles of interest.

"Kamehameha will celebrate its twenty-fifth anniversary this month," says an editorial. "During these years hundreds of students have attended its different departments. These men and women have gone to all parts of the Islands carrying with them the ideas and ideals of the Schools. The splendid instruction of the Girls' School finds its fruition in well-kept homes and well-trained children. The results of the work done in the Preparatory and Manual schools are seen in the fine body of good, principled men, earning good livings and using their influence for the betterment of the communities in which they live."

Other articles of interest are: "The Coast Artillery and the Defences on Oahu," "Little Lessons in Politics," "Shop Work Notes," a poem entitled "School Days," and others.

PHILIPPINE DELEGATE SEEMS TWO-FACED

While a love-feast is in progress in Manila in the banqueting of Manuel Quezon, the Philippine delegate to Washington, it is interesting to read extracts from the "The Filipino People" in which Mr. Quezon takes occasion to shy a few bricks at the Americans in these islands, dubbing them "carpet-baggers," "foreigners who happen to be temporary residents," etc. He states: "Thus far the carpet-bag system of government has taken firm hold of the tariff system, whereby everything is given to American traders and every disadvantage is placed in the way of those other countries. It has been seen likewise in the disposition to discriminate sharply between American officeholders and the Filipinos, who have been

permitted to secure places in the public service of the islands."

This contrasts sharply with Mr. Quezon's remarks at the banquet given in his honor in Manila and which was largely attended by American and Filipino officials of high rank, in which he stated that the government thus far accorded the Philippines by the Americans was the best government the Filipinos could have, but that the Filipinos are pardonable for wanting a government purely their own, even if it would not be quite so good a government.

Mr. Quezon is manifestly a man who is imbued with the proprieties of "time and place" and on the latter occasion his conduct was altogether lovely.—Mindanao (P. I.) Herald.

The British steamer Kestrel from Vancouver to Honolulu is believed will arrive here within the next seven or eight days provided good weather is encountered. One hundred tons cargo awaits the vessel for transshipment to Panning Island.

The Prussian Government
recognizing the value of Apollinaris to the Public Health, has placed the Spring under State Protection

Apollinaris

"THE QUEEN OF TABLE WATERS."

It is a Safeguard against Indigestion, Gout, Rheumatism and Typhoid.
